

## How To Use Voice Typing on Windows 11

---

You will need to:

- ✓ be connected to the internet,
- ✓ have a working microphone,
- ✓ have your cursor in a text box.

To turn on voice typing:

- Press **Windows** key+**H** on a hardware keyboard.
- Once you turn on voice typing, it will start listening automatically.
- Wait for the "Listening..." alert before you start speaking.
